Report of Cemetery Commission

To the Citizens of Pownal:

Due to the breakdowns of the Power Mower it was impossible to keep the yards mowed at the proper times, but, by the end of the year all perpetual care lots in four of the cemeteries had been cleaned up.

We have drawn a map of each lot in the Maple Wood Cemetery, so anybody can tell where most of the graves are.

We are hoping to be able to get somebody to clean stones on the perpetual care lots this year.

Respectfully submitted,

JOSEPH H. PERVIER,
J. NOYES MITCHELL,
A. L. TRYON.

HEALTH OFFICER'S REPORT

To the Citizens of Pownal:

Pownal has been quite free from contagious diseases of a serious nature during the past year.

Five cases of scarlet fever were reported last spring.

We have had several cases of influenza and one case of pneumonia reported this winter, also two cases of whooping cough.

In compliance with the State law, free vaccination is hereby offered for small pox.

We have had one free health clinic for the children during the year.

Respectfully submitted,

LAUREN H. TUTTLE,
Health Officer.

School Report

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Pownal:

I have the privilege of submitting my first annual report as superintendent of schools in Pownal. Since the last annual school report there have been three new school committee members, a new superintendent of schools and several changes in the teachers. Such sweeping changes in personnel cannot help but affect our schools, but excellent substitutes have made patriotic response to our appeals and I feel that the schools of Pownal are carrying on very well under the circumstances. I wish to pay particular tribute to the interest and endeavors of our school committee chairman, Mr. Fred Phillips. He has spent largely of his time and effort, at the risk of personal health, to see that the schools have kept without interruption and it is in a large measure due to him that the school program has functioned so successfully.

Although the above observations are drawn from the

period since July 1, when I took office, the financial and statistical data contained in this report are for the full year. It will be noted that there was a slight increase in the state equalization fund, and the Town was granted favorable action on an application for subsidy under the Lanham Act. This is an act to help those towns in war effort congested areas where the school systems were overburdened due to excess population brought upon them by the war industries. Pownal justified the provisions of the Act to the extent of \$1,068. These additional items of income have made it possible to balance all accounts including clearing up the overdrafts of last year. Moreover, needed repairs were made or arranged for, and new seats have been ordered for North Pownal School. All tuition bills have been paid to date, and needed books and supplies have been bought and paid for. The department seems to be in excellent financial standing.

As for next year there is a very real conveyance problem to be solved, and there are potentially 35 high school students in the Town based on this year's enrollment. It would seem necessary to keep the appropriations at the 1944 level to meet the probable expenditures in the school department. The budget as proposed by the school committee follows this statement.

May I add a personal comment to this, my first report? I have greatly enjoyed my work in the school system of Pownal, and although my efforts so far have been largely to keep teachers in the schools, I feel that there is a real opportunity to be of help to the children of the Town. I wish to thank the parents and townspeople for their interest in the schools and solicit their earnest cooperation in the school problems. In this way we school people can best serve the community in which we are working.

Thank you for this opportunity to report.

Respectfully submitted,

HOWARD D. FOWLIE,
Superintendent of Schools.

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Pownal:

I have the privilege of submitting my second annual report as superintendent of schools in Pownal. Such a report is a requirement of school law and it is, also, an opportunity to present statistical data of pupil enrollment, financial standing of the department, and pertinent information in regard to conduct of the schools.

The transportation problem we had last year has been greatly alleviated by the purchase of a new school bus. Additional money from the equalization fund made it possible to buy this piece of equipment out of current expenditures without a special appropriation from the town.

The new seats and desks have arrived for the North Pownal School and have been installed. The old seats are surplus and have been offered for sale by the school committee at \$2.00 per unit. Anyone interested should inquire of the chairman.

During the spring term at the close of the school year there were several changes of teachers, but thus far during the present year we have had a minimum of interruption. A group of good teachers has stood by loyally in spite of many other calls for their services and have done excellent work in the schools. I commend them on their achievements.

One of these achievements which will be of lasting benefit to the schools is the installation of the electric

lights in all schools. Encouraged by some \$33.00 per school received from the sale of the Tyler school house, the teachers and children, aided by a donation from the paper collection committee, raised enough money so that each school has been equipped with electric lights without direct expense to the town. Bills for electric current are being paid from the textbooks and supplies account.

Thanks to the additional equalization aid for which the town has qualified, the school committee is able to lower the school budget materially for the coming year. We are glad to pass on this saving to the town and we anticipate being able to put on an equally good program for the coming year.

Thank you for this opportunity to report.

Respectfully submitted,

HOWARD D. FOWLIE,
Superintendent of Schools.

REPORT OF PUBLIC HEALTH NURSE

CUMBERLAND COUNTY PUBLIC HEALTH ASSOCIATION

Public health is but a reflection of personal health, and has been purchased in varying degrees throughout the United States. Whether these purchases of health are being paid for as general community services or by individuals or groups, when compared with the cost of illness and the human and economic loss resulting from untimely deaths, we have paid but a very small price.

Our agency is primarily interested in two phases of public health—tuberculosis and school nursing.

Tuberculosis is a social saboteur and more costly than any other disease.

School nursing is concerned primarily with protective and preventive activities that will result in conditions that contribute to the normal growth and development of children.

Following is the statistical report of the activities of the public health nurse for the past year.

School inspections,	94
Home visits,	76
Interviews,	33
Health officers, doctors, teachers, superintendent of schools, etc.	

Respectfully submitted,

MARJORIE LANG,
Public Health Nurse.

HEALTH OFFICER'S REPORT

To the Citizens of Pownal:

We have had six cases of Measles.

Ten cases of German Measles.

Three cases of Mumps.

Three cases of Chicken Pox reported.

We understand that there have been several cases of Chicken Pox that have not been reported. As usual, the Health Nurses have given much helpful assistance for which the town should be very grateful.

One Health Clinic was held for the benefit of the children.

The town people have contributed liberally both to the Cancer and Tuberculosis controls.

Free vaccination has been offered and provided for all who wish to avail themselves to it.

We believe it is necessary to call the attention of the citizens to the obligation imposed upon them relative to contagious diseases under Sec. 39 of Chapter 22 of the Public Laws of the State of Maine.

Respectfully submitted,

LAUREN H. TUTTLE,
Health Officer.

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Pownal:

I have the privilege of submitting my third annual report as superintendent of schools in Pownal. Such a report is a requirement of school law and it is, also, an opportunity to present statistical data of pupil enrollment, financial standing of the department and pertinent information in regard to conduct of the schools.

For the first time since I have been superintendent of schools we have managed to keep the same teachers from September through to town meeting. In the unsettled social and economic conditions which have prevailed since VJ Day and which have been even more difficult to understand than the disturbed war years, this seems to have been a major achievement in itself. We particularly compliment these teachers for their faithfulness and I am glad to say that our financial situation was such that we could make some slight adjustment upward in their salary.

As this report is written two bills are before the State legislature each of which appears to have favorable consideration. One is to increase the minimum salary of teachers to \$1,500.00, and the other to increase the legal tuition chargeable to a town from \$125.00 to \$150.00 or more per pupil. The change in reimbursement to the town per teaching position is such that in Pownal after the first year the increase will be paid almost wholly from State School Funds, but it will be necessary to increase the amount raised by the town for this first year. This amount is provided for in the proposed budget included with this report.

In regard to the increase in the high school tuition charge since it will not take effect until the fall term

bills are rendered, the school committee has in mind that allowance need not be made for this fiscal year and have counted 40 students at \$125.00 each.

After much discussion pro and con, including suggestions from leading citizens of the town, the school committee have agreed to sponsor an article for the warrant which promotes the idea for a central school for the town. Presumably this would be a new building located somewhere near the geographical center of the town when and if funds were made available. Present indications are that governmental funds, either State or Federal, may be had to aid needy towns in the not too distant future. The members of the school committee and your superintendent wish their positions to be clearly understood. Irrespective of what each of us believe we shall accept the vote of the town as a directive in the matter. If the town is not interested and the vote is negative, well and good. If the town is interested, then the committee can keep working on the proposition and bring a plan to some later town meeting.

Various matters of expenditures are shown in the financial divisions of this report and should be carefully considered by all interested citizens. Also the committee calls attention to the cleaning and painting which has been done in the schoolhouse this year. Center Grammar, Hodsdon and West Pownal schools have been thoroughly cleaned, painted and papered during the year. It is hoped that many of you will visit these buildings since money is asked for in the budget to complete the work in the other buildings this year.

With sincere appreciation for the loyalty of the teachers, the cooperation of the school committee, and the interest and support of the parents and taxpayers, I respectfully submit this report.

Signed:

HOWARD D. FOWLER,
Superintendent of Schools.

ANNUAL REPORT—POWNAL

January 1946—January 1947

CUMBERLAND COUNTY PUBLIC HEALTH
ASSOCIATION

Public Health Nursing aims to build a solid foundation of physical health and well being within the group of school children so that it may reach beyond the school into the community. This is to be achieved through a program built around the needs of our children in the public schools of Pownal. Each member of the teaching personnel will have a part in this program, the classroom teacher's being the most active. The nurse acts as a consultant of public health and mental hygiene to the superintendent and teachers.

This agency is most definitely interested in prevention of tuberculosis and for this reason Junior High and High School pupils have been given Patch Tests every year to find reactors. All teachers, school lunch and school personnel were chest x-rayed for their personal protection and for the better health of the school children under their supervision.

My heartfelt thanks goes to every superintendent, supervisor and teacher for their unstinted efforts to promote better health and in their cooperation in attaining a measure of better school health for your community.
